To The commissioners,

From what i read in the paper you are trying to under mine the county wide growth initiative passed by the voters in November. I don't understand what needs to be clarified. I voted for 1 for 2. Till you commissioners can come up with a zoning plan it seems to me the voters were very clear on what they voted for. It's is not responsible on your part to be trying to go around the vote in November. I would like you to stop wasting our tax payers money and time and just implement the voter mandate.

Thanks for taking the time to read my e-mail.
